George Sachpatzidis

SaaS Products Director @ Pobuca

George is a Product Leader and Software Architect with a demonstrated history of applying Agile methods and practices to create products based on Artificial Intelligence and Machine Learning. He studied Electrical and Computer Engineering (MEng) at the University of Patras and Software Engineering (MSc) at the University of Oxford. The past 10 years, he has contributed to the development of award-winning software products from both Engineering and Product Management roles. George is enthusiastic about Cognitive Science and Artificial Intelligence, and spends a lot of his time working on Machine Learning research. Finally, he is trying to spread his passion for science and technology by voluntarily teaching computer programming to kids through programs like Code Club.
