Neofytos Kolokotronis

Neofytos studied medicine and got a degree in psychology, before deciding to follow his passion for technology. He is a co-founder of open data and open government citizen initiatives and has been a long-time contributor to international communities and organizations developing open source products. Neofytos is also a member of the global board of directors of KDE, one of the largest software communities in the world.

As an Innovation Specialist at Found.ation, Neofytos is leading the company's projects related to the startup and innovation ecosystem. He is also the liaison to EIT Digital, responsible for the organization's activities related to supporting deep tech startups in the SE Europe region (Greece, Romania, Bulgaria, Albania and Cyprus).
