

Nikos graduated with a Master's degree in Electrical Engineering and then used his MBA as an excuse to start working in advertising. A proud ex-Start Upper, he has been the Product advocate for IT companies in Germany and Denmark. Five years ago, he left the FinTech industry to join INTRALOT, to work with the company's products. In INTRALOT, he shares his time between pre-sales activities, new concepts, product roadmaps and projects' delivery.

An accomplished product manager bringing multi-year expertise in managing the product's complete lifecycle and effectively introducing value-driven software solutions to market. Agile professional with extensive experience in the fast-paced startup ecosystem as well as on the corporate environment, efficient in managing cross-functional teams. An engaging speaker with a demonstrated ability to communicate with stakeholders and onboard clients.
